

WHAT ARE THE CHILDREN DOING WITH THE MEDIA? AND WHAT ARE THE MEDIA DOING WITH THE CHILDREN?

The media is a great part of the lives of children and youth. At the most important meeting place in 2010, the foremost experts and inspirers are gathered to accept the challenges that are ahead of us: educators, researchers, journalists, producers and distributors. A new vision of a better world for children, youth and media is needed. Take part in and contribute to new international recommendations to translate words into deeds. See you at World Summit Karlstad.
